**A-READING****Read the paragraph and answer the questions. ( 5x5:25 pts)**

Wind blows and the trees sway but they don't fall down unless the wind is very strong. But if the trees have worms inside them, they can easily knock down on the ground. Human beings are like trees in this case. The worm is 'stress'. And the wind is our problem. A man without stress is an unusual situation in the modern life. Because we have some targets and to reach them we struggle and fight with what we come across. This causes stress, aggression and sometimes violence. These are our emotions. We should control our feelings not only negative ones but also positive ones such as love, excitement or joy. We can see people screaming on the streets, in the cars because of their joy or love. Besides we see people trying to commit suicide as they have sorrows or a stressful life. Both uncontrolled situations are harmful for our lives. Students are stressful before the exams. If they study their lessons regularly, there won't be need for stress. Parents have stress because of financial problems. If they spend their money with accordance their income, there won't be much financial problems. Drivers have stress in the street. If they obey traffic rules properly, they won't get stressed.

1. What can be the title of this paragraph?
2. On what ways do people and trees are same?
3. Why do people have a lot of problems nowadays?
4. How can students overcome their exam stress?
5. What problems do we face when the emotions are uncontrolled?
