## A-READING

We were fishing the other day with my friends in the pond near our cottage in the country. I was holding the rod in silence on the big boat when it started to shake roughly. Finally, I caught a big fish, I thought. It was so heavy. I started to pull the line slowly. My friends got excited, as well. They were watching me while I was pulling the line. I pulled it until we saw that it was a big boot! My friends laughed at me eventually. I was very disappointed. People shouldn't throw their things to seas or lakes. They pollute the environment.
