1- **Since poorer countries did not cause much pollution, they should not have to bear so much of the burden in dealing with global warming.**

- A) No matter how little responsibility some poor countries have for pollution, they should bear as much of the burden of global warming as others.
- B) Due to the fact that poor countries have little responsibility for pollution, they should bear less of the burden of global warming.
- C) That some poor countries don't cause much pollution doesn't mean they don't have to bear the burden in dealing with global warming.
- D) Global warming will mainly harm developing countries, because they are poorer and therefore more vulnerable to the effects of pollution.
- E) If poorer countries hadn't caused so much pollution, they wouldn't have to bear the burden in dealing with it.

2- **Only if we respect and value our children, will they learn to respect and value us.**

- A) We must teach our children that respect is an important value so that they respect us.
- B) It is not until children know what respect and value is they will respect us.
- C) Respect and value are two important aspects we have to teach our children as parents.
- D) In order to teach our children to respect and value us, first we must respect and value them.
- E) It is important that our children respect and value us.

3- **Good friends can be humans or animals, but whichever they are, it is wonderful to have them.**

- A) Since animals are wonderful, they are often good friends of human beings.
- B) For humans, it is important to be friends with animals.
- C) Whether they are human beings or animals, it is great to have good friends.
- D) Animals can be wonderful friends for human beings.
- E) It is wonderful to have animals instead of humans as good friends.

4- **Melbourne's incredible year-round calendar of events means that no matter when you visit there's always something special to see.**

- A) When you visit Melbourne and you want to see something special, you should know when the events take place.

- B) Melbourne is such an incredible city that it is visited by many people from all over the world.
- C) Melbourne is one of the best places to visit if you want to see something special in some parts of the year.
- D) Unlike other holiday destinations, Melbourne is famous for its tremendous year-round calendar events.
- E) Since Melbourne is full of tremendous events throughout the year, there is always something special to see whenever you visit it.

5- **The same amount of alcohol has a greater effect on a lighter person than on a heavier person, because the blood alcohol concentration is higher in the lighter person.**

- A) Lighter people are less affected by the same amount of alcohol than heavier people.
- B) Since heavier people have a higher blood alcohol concentration than lighter people, they are more affected by alcohol.
- C) Due to their higher blood alcohol concentration, alcohol affects lighter people more than heavier people.
- D) People with higher blood alcohol concentration are more affected by alcohol, no matter how much they weigh.
- E) Smaller and lighter people are not as susceptible to the effects of alcohol as larger and heavier people.

6- **As divorce has become more common, more and more women seek economic security in career instead of families.**

- A) Nowadays, many women chose career to family therefore the number of divorces has increased significantly.
- B) Getting divorced is more common among women with economic security.
- C) Nowadays, the number of divorces has decreased despite the fact that many women seek economic security in career over their families.
- D) Since divorce is so common nowadays, the number of women who choose career to their families as economic security has increased.
- E) More and more women are getting divorced but they find it difficult to start a career.

7- **Nowadays the qualities of some films are so bad that as soon as the film begins, it is quite clear how it will end.**

- A) Though the quality of films is poor, it is not easy to predict the end of them.
- B) The quality of some films has become so poor that no sooner a film begins than we can predict the end of it.
- C) Although the qualities of films have become so poor, there are still some films that are enjoyable to watch.
- D) Since the quality of the film was so bad, as soon as it began, it was quite clear for us how it would end.
- E) The reason why it was difficult to predict the end of the film was its exceptional quality.

8- **During the winters when there is not enough food for them to survive, some animals, such as bears, take a long nap until spring.**

- A) In winter, when food is scarce to survive, some animals, such as bears, sleep through winter.
- B) Very few animals sleep through winter, when they can't find enough food to survive.
- C) Bears don't need much food to survive while taking a long nap during winter.
- D) While many animals take a winter sleep, bears don't sleep through the winter.
- E) Since bears don't need much food during the winter, they take a long nap until spring.

9- **In some countries, many teenagers have jobs while they are still students.**

- A) Many teenagers find it difficult to study and work at the same time.
- B) In some countries, many teenagers don't have to work in order to finance their education.
- C) In some countries many young people work and study at the same time.
- D) In some countries, many teenagers prefer their jobs to education.
- E) In some countries, it is not allowed for teenagers to work and study at the same time.

10- **Nearly three times the size of the United States, the ozone hole over Antarctica appears to be shrinking.**

- A) Although the ozone hole over Antarctica appears to be shrinking, it is still a problem.
- B) If the ozone hole over Antarctica shrunk, it would still be three times bigger than the US.
- C) Even if the ozone hole over Antarctica appears to be shrinking, it is still three times the size of the US.

- D) The ozone hole over Antarctica and the US seems to have declined three times in size.
- E) The ozone hole over the US, which is approximately three times bigger than Antarctica, seems to be declining.

11- **You can learn the basics in a year or so but the style needed in ballet can take years to get right unless you are born with the natural talent.**

- A) Even if you are talented, it is not possible to learn the basics in ballet within a year.
- B) You might learn the basics in ballet within a year but the style needed for it takes years if you aren't a natural talent.
- C) It might be difficult even for the talented to learn the basics and style in ballet.
- D) If you learn the basics in ballet you can learn the style needed for it in a year.
- E) You don't need to be a natural talent to learn the basics and the style needed in ballet within a year.

12- **Some people don't see themselves as criminals, even though they break the law on a constant basis.**

- A) The reason why some people don't consider themselves as criminals is that they don't break the law on a regular basis.
- B) No matter why some people break the law, if they don't do it on a regularly basis, they should not be considered as criminals.
- C) Breaking the law on a constant basis doesn't necessarily mean that we are criminals.
- D) Although some people regularly break the law, they don't consider themselves as criminals.
- E) People should not be seen as criminals until they start to break the law on a regular basis.

13- **Smokers get about the same amount of nicotine and tar no matter what kind of cigarette they use.**

- A) The kind of cigarette, smokers use determines the amount of nicotine and tar they get.
- B) The amount of nicotine and tar remains the same for smokers even if they use different kinds of cigarettes.
- C) If every smoker smoked the same cigarette they would get the same amount of nicotine and tar.
- D) Smokers get the same amount of nicotine and tar unless they use different kinds of cigarettes.
- E) Even if smokers use the same cigarette, they don't get the same amount of nicotine and tar.

- 14- The holiday season makes people do strange things and I am no exception.
- A) It is really strange that people do very bizarre things during the holiday season.
 - B) Unlike others, I have never done something strange while on holiday.
 - C) The holiday season is the time when people do bizarre things, like me.
 - D) I find it strange that so many people do bizarre thing when they are on holiday.
 - E) I know a lot of people who do strange things during the holiday season.
- 15- Neither of my two older brothers has the sense to invest money wisely.
- A) My two older brothers don't have enough money to invest in their business.
 - B) Neither of my brothers lacks the potential to make sensible investments.
 - C) My two older brothers are becoming more active in investing their money.
 - D) Both of my older brothers are incompetent when it comes to making wise investments.
 - E) My two older brothers have the capacity to make wise investment
- 16- If someone disagrees with you, provide good reasons why you think your opinion is better.
- A) When you disagree with someone's idea, ask him to explain why his opinion is better.
 - B) No matters how good reasons you provide, there is always someone who disagrees with you.
 - C) As long as you can provide good reasons why your idea is better, others will agree with you.
 - D) Some people will always disagree with you even if you give good reasons why you think your opinion is better.
 - E) In case someone doesn't share your opinion, offer him good reasons why your attitude is better.
- 17- Many young people are leaving school without the knowledge and skills they will need later in life.
- A) Many young people learn the basic knowledge and skills after leaving the school.
 - B) Many teenagers don't know that they will need the knowledge and skills taught at school later in their lives.
 - C) Many teenagers graduate from school without the knowledge and skills they will need in their future.
 - D) There are so many young people who think that school can't give them the knowledge and skills they will need later in life.
 - E) No sooner teenagers leave school than they realize that they don't have the knowledge and skills they will face in the future.

- 18- No two people metabolise food at the same rate therefore no two people have the same metabolism.
- A) Since each person's metabolism is unique, every individual metabolise food at different rate.
 - B) It is rare that two people metabolise food at the same rate because no two people have the same metabolism.
 - C) Even if people don't have the same metabolism, sometimes it is possible to metabolise the food at the same rate as someone else.
 - D) Although many people have nearly the same metabolism, they don't metabolise food at the same rate.
 - E) Metabolism is unique like fingerprints, but many people metabolise food at the same rate.
- 19- Almost ninety per cent of all American high school students claim that they know how to read, yet this figure is probably somewhat lower.
- A) Although nearly all of the American high school students claim that they can read, it is likely that the percentage is lower.
 - B) Studies have shown that ninety percent of all American high school students don't know how to read.
 - C) Ninety percent of all American high school students are able to read.
 - D) In most American high schools, the number of students who can read is still below the average.
 - E) As in most American high schools, the percentage of the students who claim to know how to read is very low.
- 20- Sometimes we focus so much on what we have to say about a topic that we don't hear what others say.
- A) Sometimes, we should be concentrated more on what we want to say.
 - B) Sometimes we focus on what others want to hear instead of what we want to say.
 - C) Sometimes instead of being concentrated on our own comment about the topic, we listen to others.
 - D) Even if we have to be focused on what to say about the topic we shouldn't forget to listen what others are saying.
 - E) From time to time we are so concentrated on our own comment to the subject that we don't listen what others say.

21- Of the thousands of known volcanoes in the world, the overwhelming majority are inactive.

- A) There are thousands of known volcanoes in the world, most of which are active.
- B) Only a minority of the many known volcanoes in the world are active.
- C) A vast majority of volcanoes in the world are still active.
- D) Many of the extinct volcanoes in the world have potential for future eruption.
- E) Many of the known volcanoes in the world are considered temporarily inactive.

22- Classmates are a more important influence than parents on a child's success in school.

- A) Not only classmates but also parents play an important role on a child's success in school.
- B) Both the classmates and the parents are important on a child's success in school.
- C) Children who get on well with their classmates are more successful in school than those who don't.
- D) Children's success in school is affected more by their classmates than by their parents.
- E) Parents have significant influence on their child's success in school.

23- Most nurses are women, but in the higher ranks of the medical profession women are in minority.

- A) Although the majority of nurses are women, only a small number work in the higher ranks of the medical profession.
- B) The vast majority of nurses are women; however, the percentage of men in the field has increased slightly.
- C) Since women were not allowed to work in the higher ranks of the medical profession, they worked as nurses.
- D) Despite the fact that there are higher medical professions, women have to start their career as a nurse.
- E) More women serve in the field of nursing than in any other profession.

24- Only those who can afford to lose their money should make high-risk investments.

- A) Although many people make high-risk investments, only a few actually make money.
- B) Some investments are not so risky but people might still lose their money easily.
- C) If people can't afford to lose money, they shouldn't make investments that are highly risky.
- D) People could have lost all their money as a result of high-risk investments.
- E) Even those who can afford to lose their money shouldn't make high-risk investments.

25- The work was almost complete when we received orders to proceed no further with it.

- A) By the time we were ordered not to go on further with it, we had already completed most of the work.
- B) When we received orders not to proceed further, we refused to stop working.
- C) Since we were ordered not to proceed further, we stopped working.
- D) Although we received orders to stop the work, we went on with it.
- E) We wouldn't go on further with the work, if we were ordered to stop it.

26- Students should not try to write down everything they hear in a lecture, but just make a summary of the most important points.

- A) Because many students don't want to miss any important point, they write everything down they hear in a lecture.
- B) Since it is difficult to write everything down in a lecture, many students just make a summary of the most important points.
- C) Although it is easier to sum up the most important points, students try to write down everything they hear in a lecture.
- D) While some students write everything down in a lecture, others only sum up the general points.
- E) Instead of writing down everything during a lecture, students should try to sum up the most important points.

27- Except a few insurance professionals, there is no one who understands completely what insurance is.

- A) Knowing everything about insurance is impossible even if you are a professional.
- B) No one but some insurance professionals completely understand what insurance is.
- C) If most of the people understood what insurance is, there wouldn't be any need for insurance professionals.
- D) There are many insurance professionals who know everything about insurance.
- E) Insurance is so complicated that even professionals can never know everything about it.

28- You made the situation worse by blaming yourself.

- A) You can't blame yourself whenever a situation gets worse.
- B) Blaming yourself will not make the situation better.
- C) The situation will not change even if you blame yourself.
- D) If you hadn't blamed yourself, the situation wouldn't have become worse.
- E) You shouldn't blame anyone for this bad situation.

29- No one will guess what you want if you don't tell them, and nothing is going to change if you do not propose a change.

- A) Instead of trying to guess what others want, you should ask what they want.
- B) Even if you can't change anything, it is worth telling what you want.
- C) Neither is it possible to change anything nor to be understood unless you tell what you want or what changes should be done.
- D) As long as you don't understand what others expect from you, there isn't a chance to change yourself.
- E) No matter what you tell or propose, nothing is going to change.

30- The doctor won't see anyone without an appointment but you can still try.

- A) Even if you have an appointment, the doctor will not see anyone.
- B) You couldn't see the doctor because you didn't have an appointment.
- C) Whether you have an appointment or not, the doctor will not see you.
- D) If you had made an appointment, you could have seen the doctor.
- E) Although it is not possible for anyone to see the doctor without an appointment, you can try it.

31- Dreaming that they will find better chances of employment immigrants choose to settle in the U.S.

- A) The reason why immigrants come to live in the U.S. is the dream of having a better job.
- B) Although the chance of employment is little in the U.S., many immigrants choose to settle there.
- C) Living and working in the U.S. is the dream of many people.
- D) The chance of getting a better job is higher in the U.S. than anywhere else.
- E) Many immigrants in the U.S. have low-waged jobs and don't have a chance for a better employment.

32- But for the storm, the ship would have reached its destination on time.

- A) The ship reached its destination on time in spite of the storm.
- B) If there hadn't been a storm, the ship would have arrived at its destination on time.
- C) When the storm began, it was difficult to navigate the ship to its destination.
- D) It is difficult to navigate the ship, when there is a strong storm.
- E) As the storm was really heavy, the ship couldn't reach its destination.

33- The advertisement says this material doesn't shrink in the wash, but it has.

- A) No matter what advertisements say, most of the materials shrink in wash.
- B) It was not mentioned in the advertisement that this material shrinks in the wash.
- C) As the advertisement says, this material doesn't shrink in the wash.
- D) Despite what is advertised, this material shrinks in the wash.
- E) Whether this material shrinks in wash or not is not mentioned in the advertisement.

34- People who live in suburban houses have to spend more money and time travelling to work every day.

- A) Unlike suburban residents, city residents spend less time on commuting but more money on housing costs.
- B) Although getting downtown is time consuming and expensive, many people prefer living in the suburbs.
- C) The cost in both money and time of commuting to work for the suburban residents is higher than the cost for city residents.
- D) Since most of the job opportunities are in cities, many suburban residents have to travel downtown to work every day.
- E) Many suburban residents use public transportation to reduce the cost of commuting to work.

35- Advertising can persuade the consumer to buy worthless products by appealing to his buying motives.

- A) Since most of the advertisements appeal to the buying motives of the customers, many people spend a lot of money in worthless products every day.
- B) A good advertisement is one that gets the viewers' attention.
- C) No matter how effective an advertisement is, it can't attract the customer's attention unless he is willing to buy.
- D) Advertising can only be effective if the message reaches the business' specific target.
- E) Consumers may be convinced to buy a useless product by effective advertising.

36- Considering your salary, you should be able to put aside at least twenty dollars a week.

- A) Your salary is high enough to save at least twenty dollars a week.
- B) If your salary were high enough, you could put aside at least twenty dollars a week.
- C) Considering your salary, you can't save twenty dollars a week.
- D) Now that your salary is not high enough, you should try to put aside not more than twenty dollars a week.
- E) Although your salary is considerably high, you are not able to save at least twenty dollars a week.

37- In order to recover their share of the world market, U.S. automakers are improving product quality.

- A) As long as the U.S. auto manufacturers don't improve the quality of their products, they will **not** be able to compete in the world markets.
- B) The U.S. auto manufacturers will not recover their share of the world market unless they improve the product quality.
- C) The U.S. auto manufacturers are improving the quality of their products to remain competitive in the world markets.
- D) Regardless of the fact that U.S. auto manufacturers have improved the product quality, they can't recover the world markets.
- E) Since U.S. auto manufacturers have improved the quality of their products, they can compete in the world markets.

38- Without peace, Somalia will be unable to pursue the development it so desperately needs.

- A) In countries, such as Somalia, the possibility of establishing peace is little.
- B) Unless peace prevails, Somalia will not be able to continue with the necessary developments.
- C) After peace was restored, Somalia was able to develop its economy.
- D) While Somalia is trying to establish peace in the country, it also makes the desperately needed developments.
- E) Due to the economic crisis it is difficult to maintain peace in Somalia.

39- Liquids are like solids in that they have a definite volume.

- A) Liquids have indefinite shape but definite volume.
- B) Unlike liquids, solids have a definite volume.
- C) Both liquids and solids maintain a definite volume.
- D) It is unlikely that both liquids and solids have the same volume.
- E) Liquids are not necessarily denser than solids.

40- The world is getting warmer largely due to man-made causes.

- A) The increase in the world's temperature is a serious problem for human beings.
- B) That the world is getting warmer can't be attributed to man made causes.
- C) Although global warming is getting worse, it is not clear how much of the problem is caused by human activity.
- D) The world is getting warmer; however, human beings have less impact on it.
- E) Global warming is mostly caused by human activities.
